Reason(s) for Change: Due to the PFC control IC discontinuation, we are forced to change the production process of the control board from DIP to SMT to accommodate the new control IC.

Description of Change: New primary control board has been implemented. The potentiometer (VR) on the control board is not accessible on the enclosed version or the version with fan due to the placement of SMD VR. The function and performance of the power supply are not affected due to this change.

Affected Date Code: The change will begin after the 05/29/2014
Product Availability: After 06/30/14
