

Product Change Notice (PCN)

Date: October 13, 2020

PCN Number: PCN-656-95022R-01

To Our Customers:

We appreciate your use of CUI products. Our commitment in maintaining and improving processes is demonstrated by plans to enhance our product quality, reliability and manufacturability. The purpose of this notice is to inform you of a product change.

Product(s) Affected: PBO-1, PBO-1-B, PBO-3, PBO-3-B, PBO-5, PBO-5-B Series

Reason(s) for Change: Improve production efficiency, product operation, and supply chain stability

Description of Change: The pin design and assembly are being modified for improved manufacturability; the size, length, and spacing of the pins will remain unchanged. General improvements to the design and component selection may modify the aesthetics of the units and support an extended input voltage range while maintaining pin-for-pin, drop-in, backwards compatibility with the current production releases. The improved design also unifies operating performance across affected product series to include:

- an extended input voltage range (85 ~ 305 Vac)
- an extended operating temperature range (-40 to +85 C), if required, with a few external component changes as outlined in the products' respective spec sheets

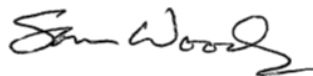

Affected Date Code: 2047 or later (year 2020, work week 47)

Product Availability: Currently available

Additional Information: None

PCN Approval:
